ELKS WILL HAVE BIG INSTALLATION

NEW OFFICERS WILL BE INDUCTED AND SPEECHES WILL ENDSUE AT THE BANQUET

Next Tuesday evening the new officers of Tonopah lodge of Elks will be installed, according to the ritual prescribed for the occasion and the new exalted ruler, Arthur Keenan, will name the committees for the current year. After the lodge session a banquet will be given and an elaborate program of speeches and other festivities is hinted at. The occasion will be further emphasized by the fact that this will be the last appearance for some time of Fred Penn, the retiring grand exalted ruler, who is about to leave Tonopah to take an important position in British Columbia. Mr. Penn has been one of the best boosters for the Elks and his departure is sincerely regretted. Goldfield has signified its intention to be represented by a large delegation under the direction of Ike Bair, grand exalted ruler, who has a happy appreciation of the recent visit of Tonopah to the southern camp.

GERMAN MESSAGE

(Continued from Page One.)

was not unobjectionable. Our behavior contrasts considerably with the behavior of the Washington government. "President Wilson, after our note of January 31, 1917, which avoided all aggressiveness in tone, deemed it proper immediately to break off relations with extraordinary roughness. Our ambassador no longer had the opportunity to explain or elucidate orally our attitude. The United States government thus declined to negotiate with us. On the other hand, it addressed itself immediately to all the neutral powers to induce them to join the United States and break with us.

"Every unprejudiced person must see in this the hostile attitude of the American government which seemed to consider it right, before being at war with us, to set the entire world against us. It cannot deny us the right to seek allies when it has itself practically declared war on us."

"I was reproached for thinking just of Mexico and Japan. First of all Mexico was a neighboring state to America. If we wanted allies against America, Mexico would be the first to come into consideration. The relations between Mexico and ourselves since the time for Porfirio Diaz have been extremely friendly and trustful. The Mexicans, moreover, are known as good and efficient soldiers.

"When I also wished to persuade Carranza that Japan should join the alliance there was nothing extraordinary in this. The relations between Japan and Mexico are long existing. The Mexicans and Japanese are of a like race and good relations between both countries exist. When further the entente press affirms that it is shameless to take away allies, such reproach must have a peculiar effect coming from powers, who like our enemies, made no scruple in taking away from us two powers and peoples with whom we were bound by treaties of more than 30 years. The powers who desire to make plant an old European country of culture like Greece by unparallelled and violent means, cannot raise such a reproach against us.

"When I thought of this alliance with Mexico and Japan, I allowed myself to be guided by the consideration that our brave troops already have to fight against a superior force of enemies, and my duty is, as far as possible, to keep further enemies away from her. Thus, I considered it a patriotic duty to release those instructions and I hold to the standpoint that I acted rightly."

have never weighed more than a pound different. We eat the same food and we drink the same drinks. We're bachelors, both of us, and we sleep in twin beds.

"We were born in Rochester, N. Y., 108 years ago—I mean 54 years ago, being twins, we're in the habit of doubling things—and we had the same father and mother.

"That's all stuff and nonsense about having the same pains and aches. Course, we get hungry three times a day, alike, and we have had colds at the same time.

John Briggs is a mortgage expert in the employ of H. O. Stone & Co. Charles Briggs is in the employ of Percival B. Palmer company, cloaks and suits. They have lived for ten years in the same bachelor apartment at 817 Dole avenue, and have been for twenty-five years in Chicago.

Mr. Martinek took their fingerprints, and as he did the work, he remarked: "Out of about seventeen billion fingerprints no two have been found alike."

And the fingerprints of Charles and John, Chicago's twins, verified the statement. They are not alike.

TRUCKS FOR TYBO BEGIN TO ARRIVE

FIRST OF THE BIG FLEET OF MOTOR TRUCKS ARRIVES AND DEPARTS

J. C. The first Duplex 4-wheel-drive truck, capable of carrying 3 1/2 tons, was loaded out of Tonopah this morning for the old camp. The truck was loaded to the limit with supplies to be used by the Louisiana Mining company. PUTTING THE STREETS IN SHAPE FOR THE SUMMER

Up on the hill around the base of Mount Brougher, the streets look like housecleaning time and delivery boys say the roadways are now as smooth as boulevards. This is due to the activity of Ben Hendricks, who has been busy removing broken rocks and other impediments to the easy going of automobiles.

RUTHLESS U BOAT

(Continued from page one)

ant fact of all is that the number of our submarines has been very considerably increased, as compared with last spring, and thereby a firm basis has been created for success. "Does this not prove conclusively that it was not any scruple or any respect for international law or neutral rights that prevented unrestricted warfare from being adopted earlier, but merely a lack of means to carry out. I think it may be useful once again to point out that the illegal and inhuman attack on shipping by the Germans cannot be justified as a reprisal for the action of Great Britain in attempt to cut off Germany from all imports.

"The submarine campaign was clearly contemplated as far back as December, 1914, when Admiral von Tirpitz gave an indication to an American correspondent in Berlin of the projected plan. As for the plea that the allies are aiming at the annihilation of Germany and her allies, and that ruthless warfare is therefore justified, it is sufficient, in order to refute this, to quote the following passage from the allies' reply of January 10, 1917, to President Wilson's note:

"There is no need to say that if the allies desire to liberate Europe from the brutal covetousness of Prussian militarism, the extermination and political disappearance of the German people have never, as been pretended, formed a part of their design."

CAN YOU BEAT IT?

Dale is on the job all the time, getting goods direct from the producers, cutting out the expenses and profits of all middle men. More potatoes coming—which shows the appreciation Tonopah people have for HONEST PRICES.

Since we began selling better groceries, and for cash, and for less cost, because we have no lost accounts, our business has more than doubled.

We sold about \$5000 worth of groceries during February, but our March business will aggregate between \$12,000 and \$15,000. Five per cent profit on \$15,000 is more than 10 per cent profit on \$5000. Other merchants say they have to pay 30 per cent to cover their lost accounts of people who don't pay their bills.

With increasing business we can still further lower the prices to you.

Potatoes, 3 1-3 Cents a Pound

SPECIAL: With every three dollars worth of groceries bought at our store we will sell Fifteen Pounds of Potatoes for 50 cents. This is only 5 per cent over cost, and we will deliver them at your door.

On your pay day you can come and deposit \$20 or \$30 with us, and during the latter part of the month you can get cash prices.
